

Recycled eCommerce Mailer Film (REM)

Recycled ecommerce mailer film is specifically engineered for ecommerce order fulfillment applications. The co-extruded film contains a unique blend of resins, plus at least 25% recycled content, making REM a part of our EarthAware® family of environmentally responsible films.

The white opaque, matte exterior finish provides security and is ideal for both direct thermal transfer imprinting and adhesive label applications. These bags come standard with heavy duty, reinforced side seals that protect against splitting and loss of goods during transit.

Genuine Autobag® and SidePouch® bags are system-matched and guaranteed to run on Automated Packaging Systems' equipment.

Technical Information

Compliances	N/A
Press Printing	Yes with restrictions
Imprinting	Yes
Trim Seal	Yes
Bag Mil Thickness	2.0, 2.5, 3.0
Bag Configurations	Autobag; SidePouch with restrictions

Performance Data:	U/M	2.0 mil	2.5 mil	3.0 mil	ASTM

Due to the recycled content of the material, the physical properties of REM are subject to vary beyond the typical expectations of virgin film. This data should be used for reference purposes only. Certain minimum purchase volumes may apply.

Formulations

• REM

Features & Benefits

- At least 25% pre-consumer recycled content
- Recyclable anywhere plastic bags are accepted
- Superior strength and reinforced side seals
- Optional two-way tape for convenient merchandise returns
