

BubbleWrap®

BRAND PACKAGING

Rocket Void Fill Inflation System

The BUBBLE WRAP® brand Rocket is an on-demand inflatable void-fill system designed to meet diverse fulfillment needs. This air pillow system is fast, simple, light, and compact, enabling businesses to create a custom platform for packaging operations of all sizes.

OPERATIONAL EFFICIENCIES

- Produces on-demand inflatable packaging materials at speeds up to 100 ft per minute
- Faster inflation allows for greater productivity and labor efficiencies, reducing pack time by up to 10 seconds, enabling improved throughput of finished packaged goods
- Maximum inflation reduces the amount of film needed to fill the same void, reducing material and pack costs
- Easy-to-use system integrates with your current operation to start inflating immediately
- Allows for different workstation configurations to maximize space without sacrificing efficiency
- Compact design (less than 1.5 sq. ft.) makes it ideal for tabletop placement in decentralized environments
- Automated tracking control eliminates the need for manual adjustment, enabling consistent filling performance
- Patented edge seal technology offers superior sealing and material strength, increasing reusability

FILM OPTIONS

- Engineered to work with BUBBLE WRAP® brand Inflatable Air Pillows, available in regular and varying recycled content configurations

EQUIPMENT

- Dimensions without accessories:
 - (LxWxH) 12.75" x 13.5" x 13.75"
(32 cm x 34 cm x 35 cm)
- Compatible with a variety of accessories that enable customization to suit small to large businesses
- No air compressor required

APPLICATIONS

- Ideal for 3rd Party Logistics, fulfillment centers and ship-from store applications
- Suitable for an assortment of applications such as: Consumer-Packaged Goods (CPG) & Retail, Life Sciences & Pharmaceuticals, and E-commerce
