Extreme HRC Air Pillows with High Recycled Content

Inflatable Packaging Solution

Thin film with a minimum 95% Recycled Content

BENEFITS

BUBBLE WRAP® brand Air Pillows with Recycled Content are designed for inflatable void fill packaging to secure and cushion goods while in transit, reducing returns and increasing customer satisfaction.

These films contain a minimum of 95% recycled content, out of which 55% is PCR and 40% is PIR. Recycled material contained in these films is certified according to EN15343 which establishes procedures for track and trace of recycled plastic content sourcing and use in product manufacturing.

They combine strength, ease of use with decreased dependence on virgin based resins.

THIN FILMS WITH RECYCLED CONTENT FOR YOUR PACKAGING OPERATION

With their long roll lengths, and wide range of cushion sizes, they make significant strides in operational efficiency. Inflate on demand using the BUBBLEWRAP® brand Rocket® system and the BUBBLE WRAP® Inflator (200, 250 and 400mm width equipped with RFID tag).

Cushion size (uninflated)	Roll Length
200 x 130mm	1280 m
200 x 200mm	1280 m
250 x 130mm	1280 m
250 x 200mm	1280 m
300 x 130mm	1280 m
300 x 200mm	1280 m
350 x 130mm	1097 m
350 x 200mm	1097 m

SUSTAINABILITY

REDUCE

These films have an HDPE structure, with a nominal thickness of only 20 microns, so less plastic is used vs alternative LDPE films at 25 microns. By inflating on-demand, storage space is saved.

RECYCLE READY*

The film is compatible with mechanical recycling streams of HDPE and recyclable in many locations.

**Degree of recyclability of the final package depends on the specific product configuration or components intended for recycling and the scope and availability of appropriate local recycling facilities.*
